

**Praise for Putting it ALL Together: Foundations of
Instructional Design for Trainers!
January 16 & 17, 2007**

Xanterra Parks & Resorts, Yellowstone National Park

“Upon accepting my current position, I remember how the training was blah, blah, blah! I decided to create a better training using power point. Through this class, I’ve realized that my “improved training” was just blah, blah, blah with pictures!”

“This was very helpful and informative. Very well presented. Thank you.”

“The training was specific! From the beginning I was able to apply the concepts to my training.”

“It is always great to recharge the batteries and get new ideas.”

“Even though I have participated in several similar workshops; I always learn from everyone and also the refresher sparks new ideas for me.”

“I appreciate all the ideas and thoughts presented. I will definitely implement some changes.”

“Great class and fantastic trainer. Marcia made me think in a different way.”

“I can fit in a lot of ideas brought up and start to implement in training – NO MORE LECTURES!”

“It gave me some ideas on how to use the materials I have but to “chunk” them and have more fun.”

“This class let me see the possibilities for my trainings.”
